

TECHNOLOGY INTEGRATION SOLUTIONS

CAPABILITIES STATEMENT

TUWYN Technology Integration Solutions is dedicated to delivering innovative and reliable technology solutions. Our mission is to enhance communication, security, and operational efficiency for our clients in the public sector. We specialize in advanced

cybersecurity, cloud services, network management, IT audit readiness, help desk services, IT personnel staffing, gunshot detection, digital wayfinding, and IT and AV product sourcing.

CORE CAPABILITIES

► CYBERSECURITY SOLUTIONS:

Advanced threat protection, real-time threat intelligence, Zero Trust Network Architecture.

► CLOUD SERVICES:

Managed hosting, private clouds, cloud-native security operations, Microsoft Azure security stack, and Infrastructure as Code model.

► NETWORK MANAGEMENT:

Network design, monitoring, KPI reporting, 24/7 network operations support, network modernization, scalability.

► **HELP DESK SERVICES:**

ITIL-based help desk, Tier 2 and Tier 3 end-to-end security monitoring.

► **IT PERSONNEL STAFFING:**

Comprehensive technical approach, qualified staffing, surge support.

► **GUNSHOT DETECTION:**

The Outdoor Gunshot Sensor is a compact, wireless, self-contained, battery-operated sensor that performs energy capture and waveform analysis, and transmits resultant data to the Emergency Automatic Gunshot Detection & Lockdown (EAGL) System.

► **IT AUDIT READINESS:**

Automation, audit monitoring, remediation

► **DIGITAL WAYFINDING:**

Digital wayfinding solutions provide intuitive navigation and guidance within healthcare facilities, enhancing patient experience and operational efficiency.

► **IT AND AV PRODUCT SOURCING:**

Sourcing and providing IT and AV products, including audio-visual equipment, intelligent video solutions, photography equipment, video and broadcast equipment, audio equipment, computers and accessories, drones, and robotics.

OUR COMMITMENT

We bring value to our customers' missions by upholding our core values of quality, reliability, and customer satisfaction. Our team is dedicated to providing innovative solutions that enhance communication, security, and operational efficiency, ensuring every objective is met precisely and consistently.
